Reissue Application

Priority

A "claim" for the benefit of an earlier filing date in a foreign country under 35 U.S.C. 119(a)-(d) must be made in a reissue application, even though such a claim was previously made in the application for the original patent to be reissued. However, no additional certified copy of the foreign application filed in Sweden on January 20, 1999 is necessary. In addition, 37 CFR 1.63 requires that in any application in which a claim for foreign priority is made pursuant to 37 CFR 1.55, the declaration must identify the foreign application for patent on which priority is claimed.

Declaration

The reissue declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue declaration filed with this application is defective because it does not state that the person making the declaration acknowledges the duty to disclose *all* information *known to the person* to be material to *patentability* as defined in 37 CFR 1.56. See MPEP § 1414.

The reissue oath/declaration filed with this application is defective because applicant has not complied with the requirements of 37 CFR 1.63(c), since the oath, declaration or application data sheet does not "claim" or acknowledge the benefit of an earlier filing date in Sweden on January 20, 1999. A new oath, declaration or application data sheet is required in the body of which the present application should "claim" the benefit of an earlier filing date in a foreign country under 35 U.S.C. 119(a)-(d). See MPEP 1417.

Claim Rejections - 35 USC § 251

Claims 1-38 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defects in the Declaration is set forth in the discussion above in this Office action.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,286,417 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Response to Arguments

Applicant's arguments filed September 06, 2005 have been fully considered but they are not persuasive. Applicant failed to correct the claim for foreign priority as pointed out above and set forth in 37 CFR 1.55. Also, the reissue declaration fails to state that the person making the declaration acknowledges the duty to disclose "all" information "known to the person" to be material to "patentability" as defined in 37 CFR 1.56. This action is a **final rejection** and is intended to close the prosecution of this application. Applicant's reply under 37 CFR 1.113 to this action is limited either to an appeal to the Board of Patent Appeals and Interferences or to an amendment complying with the requirements set forth below.

If applicant should desire to appeal any rejection made by the examiner, a Notice of Appeal must be filed within the period for reply identifying the rejected claim or claims appealed.

If applicant should desire to file an amendment, entry of a proposed amendment after final rejection cannot be made as a matter of right unless it merely cancels claims or complies with a formal requirement made earlier. Amendments touching the merits of the application which otherwise might not be proper may be admitted upon a showing a good and sufficient reasons why they are necessary and why they were not presented earlier.

A reply under 37 CFR 1.113 to a final rejection must include the appeal from, or cancellation of, each rejected claim. The filing of an amendment after final rejection, whether or not it is entered, does not stop the running of the statutory period for reply to the final rejection unless the examiner holds the claims to be in condition for allowance. Accordingly, if a Notice of Appeal has not been filed properly within the period for reply, or any extension of this period obtained under either 37 CFR 1.136(a) or (b), the application will become abandoned.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy F. Simone whose telephone number is 571-272-1407. The examiner can normally be reached on weekdays between 8:00am-5:00pm.
